

Special Issue

Infection Prevention and Control of Fungal Infections

Message from the Guest Editors

We are looking for innovative decontamination approaches toward environmentally tenacious healthcare-associated fungi such as *C. auris*, resistance against many types of disinfection, and antifungals. We are also interested in new emerging fungal pathogens in the hospital environment and the influence of COVID-19 as a possible risk factor for invasive fungal infection in certain patient populations.

Guest Editors

Prof. Dr. Elisabeth Presterl

Department of Hospital Epidemiology and Infection Control, Medical University of Vienna, Vienna, Austria

Dr. Magda Diab-Elschahawi

Department for Hospital Hygiene and Infection Control Vienna General Hospital, Vienna, Austria

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief
