

# Special Issue

## Genomics of Yeast

### Message from the Guest Editors

Recent development in genomic studies using the model organism *Saccharomyces cerevisiae* has provided great insights into the effect of genetic materials on cell functions and responses. For example, by systematically addressing the phenotypes of specific genetic interventions along a given set of conditions, functional genomics provides a comprehensive and integrated view of the processes that affect yeast physiology in response to the conditions. Furthermore, the development and application of chemical genomic assays using *Saccharomyces cerevisiae* has provided effective methods to identify the mechanism of action of known drugs and novel small molecules in vivo. As such, the yeast *Saccharomyces cerevisiae* has served as an important model system for genomic studies. In this Special Issue, we welcome all areas of genomic studies using *Saccharomyces cerevisiae* as the model system to examine basic, translational, and clinical insights with particular interest in chromatin studies.

### Guest Editors

Dr. Chang-Hui Shen

Biology Department, College of Staten Island, City University of New York, 2800 Victory Boulevard, Staten Island, NY 10314, USA

Dr. Milena Georgieva

Laboratory of Yeast Molecular Genetics, Institute of Molecular Biology "Roumen Tsanev", Bulgarian Academy of Sciences, 1113 Sofia, Bulgaria

### Deadline for manuscript submissions

closed (30 April 2023)

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

---

### Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340  
Kingsland Street, Nutley, NJ 07110, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
