

Special Issue

Fungal Diseases in Europe

Message from the Guest Editors

Fungal infections continue to pose a diagnostic and treatment challenge to clinicians and microbiologists worldwide. In recent years, there has been an increase in fungal infections, a change in risk factors and the emergence of antifungal-resistant pathogens. At the same time, in the diagnostic field, new independent culture techniques have been developed. For this reason, we are dedicating this Special Issue of the journal to review the latest research in the field of fungal infection in Europe. We are looking forward to receiving original submissions of manuscripts from all over Europe, dealing with new risk factors associated with the development of fungal infection, fungal infection in special patient populations, the emergence of new antifungal resistant strains and description of outbreaks, the application of new diagnostic techniques and real-life studies describing clinical experience with new antifungals.

Guest Editors

Dr. Maricela Valerio Minero

Dr. Maddalena Giannella

Dr. Antonio Vena

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
Kingsland Street, Nutley, NJ 07110, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
