

## Special Issue

# Fungal Diversity in Various Environments, 2nd Edition

### Message from the Guest Editor

In various environments, fungi are important members of ecosystems as symbionts, saprophytes, and pathogens. We can find fungi everywhere, but their diversity and role in the environments are largely unexplored. In this Special Issue of the Journal of Fungi, we invite contributions that expand our knowledge on the fungal diversity in various environments. The topics of special interest and focus are:

- Novel species, taxonomy, and systematics;
- Biodiversity, community composition, and distribution;
- Ecology, symbiosis, and interaction with other organisms;
- Bioactivity (e.g., antibiotic effect, plant-growth promotion, enzyme activity, etc) and secondary metabolites.

Thank you for your contributions.

---

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
