

Special Issue

Women in Mycology, 2nd Edition

Message from the Guest Editors

Women have studied fungi for centuries, although their early studies focusing on macrofungi (mushrooms) have gone uncredited or have been lost over time. The 1900s ushered in a new era of interest in fungi, and there were also some famous female scholars, including Elsie Maud Wakefield, Marie Beatrice Schwarz, Christine Johanna Buisman, Johanna Westerdijk, etc. Today, women are represented in all areas of mycology, but they still face obstacles in promotions and parity with their male counterparts.

Through this Special Issue, we intend to inspire female researchers and promote their valuable work. We invite female researchers, from early-career to senior researchers, to submit articles as first or senior (last) authors focusing on the many aspects of mycology-related research. The topics of interest include, but are not limited to, the basic biology and reproduction of fungi, fungal diversity, classification and taxonomy, antifungal susceptibility testing, antifungal resistance, epidemiology, fungal diagnostics, surveillance, drug development, host responses, endemic mycosis, and the mycobiome.

Guest Editors

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
Kingsland Street, Nutley, NJ 07110, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
