***Candida auris* Infection: Recent Advances in Epidemiology, Clinical Practice, and Environmental Impact**

Message from the Guest Editor

Candida auris continues to challenge healthcare systems worldwide with its multidrug resistance, high transmission potential, and diagnostic complexity. For clinicians, this pathogen presents significant hurdles in patient management and infection control. For researchers, it raises urgent questions about resistance mechanisms, environmental persistence, and epidemiological trends. *The Journal of Fungi's* Special Issue, "*Candida auris* Infection: Recent Advances in Epidemiology, Clinical Practice, and Environmental Impact," provides a vital platform to share new findings, clinical experiences, and innovative solutions. By contributing to this Issue, you can help advance our collective understanding of *C. auris* and support the development of more effective diagnostic, therapeutic, and prevention strategies.

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin
Hackensack Meridian Health Center for Discovery and Innovation, 340
Kingsland Street, Nutley, NJ 07110, USA

Author Benefits

Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
