

## Special Issue

# Fungal Infections in Organ Transplant Recipients

### Message from the Guest Editor

We invite you to contribute your research findings, reviews, or case studies on Fungal Infections in Organ Transplant Recipients for publication in JoF. As fungal infections continue to pose significant challenges in the transplant population, it is crucial that we share the latest insights, clinical experiences, and advancements in diagnosis and management.

We are seeking submissions that cover a wide range of topics, including but not limited to:

Epidemiology and risk factors for fungal infections in transplant recipients.

Advances in diagnostic techniques.

Antifungal prophylaxis and treatment strategies.

Impact of fungal infections on graft outcomes and survival.

Novel therapies and emerging research in fungal infections.

We look forward to receiving your valuable contributions and working together to enhance our understanding and management of fungal infections in transplant populations.

Thank you for your time and consideration.

---

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.
