

Special Issue

Macromycetes of the Northern Hemisphere: Phylogeny, Taxonomy, Diversity, Distribution, Ecology, Conservation

Message from the Guest Editor

Macromycetes constitute a critical part of most habitats in the Northern Hemisphere. Nevertheless, there are still many undescribed or little-known taxa in this region. This Special Issue aims to publish a series of papers focusing on the diversity, taxonomy and phylogeny of all groups of macromycetes, as well as their distribution, ecology and conservation in various parts of the Northern Hemisphere. Submitted papers should aim to improve our knowledge of fungi in ecosystems of this area.

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
