Fungal Biofilms- New Perspectives and Practices

Message from the Guest Editors

Fungal biofilms are an important part of many ecosystems. However, the biofilms formed by fungal pathogens represent a source of serious infection. Understanding the essential pattern of survival and interaction inside fungal biofilms, but also outside them, mainly toward bacteria, is an integral part of scientific knowledge. Studies of those processes are often very complicated, as fungi are eukaryotic organisms. Nevertheless, research in this area is advancing. A particular challenge in this field represents the research of pathogenicity, factors of virulence, and host-pathogen interaction, which are closely related to conventional as well as advanced strategies for the prevention/eradication of fungal biofilms. The main mission of this Special Issue will be to uncover new information on different aspects of fungal biofilms, including both environmental and medical research aspects.

Guest Editors

Prof. Dr. Helena Bujdáková

Department of Microbiology and Virology, Faculty of Natural Sciences, Comenius University in Bratislava, Ilkovičova 6, 842 15 Bratislava, Slovakia

Dr. Lucia Černáková

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
Kingsland Street, Nutley, NJ 07110, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
