

Special Issue

Diagnostic and Therapeutic Challenges of Human Fungal Infections

Message from the Guest Editors

Fungal infections, either invasive and disseminated or cutaneous and superficial, are an important and increasing cause of morbidity. There are important challenges in the diagnostic procedure but also in the treatment of the relevant infections in both the paediatric and the adult population.

This Special Issue has the ambition of focussing on the available and evolving diagnostic and therapeutic approaches for the two big types of fungal infection (invasive or superficial), investigating and presenting the challenges that exist in these matters, and studying at least some of the factors that, as already described, turn fungi into a serious concern. Keywords

- invasive fungal infections
- systemic fungal infections
- superficial fungal infections
- mycoses
- antifungal agents
- treatment of fungal infections
- diagnosis of fungal infections
- monitoring of fungal infections
- epidemiology
- antifungal resistance

Guest Editors

Prof. Dr. Timoleon-Achilleas Vyzantiadis
Dr. Athanasios Tragiannidis
Dr. Eleni Gavriilaki

About the Journal

Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340
Kingsland Street, Nutley, NJ 07110, USA

Author Benefits

Open Access

– free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
