

## Special Issue

# Mycorrhizas for Plant Conservation

### Message from the Guest Editors

In recent decades, the accelerated loss of biodiversity in all terrestrial ecosystems confronts us with a serious environmental crisis that must be addressed by promoting the use of biological associations. Beneficial symbioses not only allow the conservation of the most endangered species and vulnerable ecosystems but they also contribute to restoring soil functions and ecosystem services. Such is the case of the utilization of mycorrhizas as one of the most widespread symbiotic associations in nature inhabiting almost all the plants on the planet. In this Special Issue, we welcome original papers from all research areas that demonstrate the benefits of mycorrhizal symbioses in the conservation of plants and ecosystem functions. Keywords:

- symbiotic propagation
- long-term survival of mycorrhizal
- endangered species
- restoring soil functions
- mycorrhizal consortia
- sustainable plant production

### Guest Editors

Dr. María Pilar Ortega-Larrocea

Department of Environmental and Soil Sciences, National Autonomous University of Mexico, Mexico City 04510, Mexico

Dr. Nathalie Séjalon-Delmas

Faculty of Science and Engineering, Biology Geoscience Department, UMR 5546 CNRS-INP- Paul Sabatier University, 31320 Auzeville-Tolosane, France

### Deadline for manuscript submissions

closed (20 September 2023)

## About the Journal

### Message from the Editor-in-Chief

The *Journal of Fungi* (JoF, ISSN 2309-608X) is an international, peer-reviewed, scientific, open access journal that provides an advanced forum for studies related to pathogenic fungi, fungal biology, and all other aspects of fungal research. Research articles, reviews and other contents are released on the Internet immediately after acceptance. The scientific community and the general public have unlimited free access to the content as soon as it is published. We would be pleased to welcome you as one of our authors.

### Editor-in-Chief

Prof. Dr. David S. Perlin

Hackensack Meridian Health Center for Discovery and Innovation, 340  
Kingsland Street, Nutley, NJ 07110, USA

---

### Author Benefits

#### Open Access

— free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPlus / SciFinder, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Mycology) / CiteScore - Q1 (Ecology, Evolution, Behavior and Systematics)
