

## Special Issue

# Xenobiotic Metabolism in Healthy Ageing

### Message from the Guest Editor

This Special Issue of the Journal of Xenobiotics intends to summarize the recent research focused on the alteration of xenobiotic metabolism, with an emphasis on its impact on healthy ageing.

Papers focused on xenobiotic metabolism during the ageing process and metabolic intervention in ageing using small molecules are welcomed. Keywords

- Metabolism
- Ageing
- Gene expression
- Xenobiotic metabolism
- Longevity
- Model organism

---

### Guest Editor

Dr. Andrea Annibal

Department of Molecular Genetics of Ageing, Max Planck Institute for Biology of Ageing, D-50931 Köln, Germany

---

### Deadline for manuscript submissions

closed (15 December 2021)

## About the Journal

### Message from the Editor-in-Chief

---

#### Editor-in-Chief

Prof. Dr. François Gagné  
Aquatic Contaminant Research Division, Environment and Climate  
Change Canada, 105 McGill, Montreal, QC H2Y 2E7, Canada

---

#### Author Benefits

##### High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, CAPIus / SciFinder, Embase, and other databases

##### Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q2 (Pharmacology)

##### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.6 days after submission; acceptance to publication is undertaken in 2.9 days (median values for papers published in this journal in the first half of 2025).
