

Special Issue

Xenobiotic Metabolism in Healthy Ageing

Message from the Guest Editor

This Special Issue of the Journal of Xenobiotics intends to summarize the recent research focused on the alteration of xenobiotic metabolism, with an emphasis on its impact on healthy ageing.

Papers focused on xenobiotic metabolism during the ageing process and metabolic intervention in ageing using small molecules are welcomed. Keywords

- Metabolism
- Ageing
- Gene expression
- Xenobiotic metabolism
- Longevity
- Model organism

Guest Editor

Dr. Andrea Annibal

Department of Molecular Genetics of Ageing, Max Planck Institute for Biology of Ageing, D-50931 Köln, Germany

Deadline for manuscript submissions

closed (15 December 2021)

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. François Gagné

Aquatic Contaminant Research Division, Environment and Climate
Change Canada, 105 McGill, Montreal, QC H2Y 2E7, Canada

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed,
PMC, CAPIus / SciFinder, Embase, and other databases

Journal Rank:

JCR - Q1 (Toxicology) / CiteScore - Q2 (Pharmacology)

Rapid Publication:

manuscripts are peer-reviewed and a first decision is
provided to authors approximately 27.6 days after
submission; acceptance to publication is undertaken in 2.9
days (median values for papers published in this journal in
the first half of 2025).
