

# Journal of *Personalized Medicine*

The *Journal of Personalized Medicine* (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative, preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis).

We count on the support of an internationally renowned Editorial Board and strive to provide authors and reviewers with a good service and to maintain a high publication standard for our journal. In our efforts to recognize, promote, and support excellence within this multidisciplinary field, we encourage authors at all stages of their career to participate in our first Best Paper Award competition.

The winner will receive a **500 Swiss Francs (CHF)** cash prize that will be granted by the beginning of 2019.
