Deadline for manuscript
submissions:

closed (5 September 2023)

Message from the Guest Editor

Anesthesiology is an essential part of surgery and crucial in ensuring patient safety and promoting high-quality recovery after surgery. In recent years, the concept of anesthesiology has evolved into perioperative medicine, which encompasses preoperative evaluation, intraoperative anesthesia management, and enhanced recovery after surgery. Despite advancements in the field of surgery and anesthesia, the perioperative mortality rate remains high at 1.4% in the United States and 4% in Europe. Chronic pain affects 30% of patients, and perioperative stroke affects 10%.

We encourage researchers to submit cutting-edge research on advancements in anesthesiology and pain management and to provide their own thoughts and insights. We especially welcome preclinical research that offers innovative ideas and potential targets for individual therapy.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
