submissions:

30 July 2024

Message from the Guest Editor

Dear Colleagues,

The goal of targeted therapeutics is to find effective small or large molecules that can traverse the blood–brain barrier and provide better therapeutic options for several neurodegenerative diseases. In this Special Issue, we would like to focus on nanoparticle-mediated drug delivery and new methodologies for drug delivery to brain tumours. We are soliciting cutting-edge research discoveries that can overcome the current challenges to drug delivery in the brain and provide better outcomes to patients within the realm of brain diseases.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
