Deadline for manuscript
submissions:

closed (30 November 2023)

Message from the Guest Editor

The past 25 years brought remarkable advances in clinical anesthesia, critical care, pain and perioperative medicine and will continue to evolve. This means we will face novel challenges, and controversies and create innovations. The journal of personalized medicine is pleased to announce a planned thematic issue called: **“Novel Advances and Innovation in Perioperative Medicine”**.

The aim and scope of this Special Issue will be to receive recent works on novel advances and innovations in perioperative medicine. The recent boom of artificial intelligence, machine learning, decision support and closed-loop systems in perioperative medicine have been enormous advances in our practice. Outside AI and data analytics, other recent advances and innovations have emerged (new perioperative technologies, new ways to optimize patient hemodynamic, patient level of sedation, analgesia etc.). We are soliciting in-depth commentary, original research (including communications), and review articles, with a focus on anesthesia, critical care and perioperative medicine communities to submit your recent work.

an Open Access Journal by MDPI

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
