Biomedical Research, Biomedical  
Sciences Research Center  
'Alexander Fleming', Athens,  
Greece

Deadline for manuscript  
submissions:

**closed (5 February 2023)**

### Message from the Guest Editor

Technological breakthroughs in **omics** have boosted the domains of Clinical -omics – the combined investigation of the human genome, proteome, and metabolome for clinical applications – and as a result, the emergence of **Clinical Bioinformatics** is prevalent.

This Special Issue aims to familiarize researchers with the latest advances in **applying bioinformatics** to promote and improve personalized medicine, approaches taking advantage of modern high resolution -omics data.

Research areas may include (but not limited to) the development and utilization of bioinformatic approaches to **personalized medicine** for the following:

- Personalized treatments, big -omics data
- Development of molecular disease signatures
- Disease-specific knowledge, omics databases, and biomarker databases
- Multi-omics integrations for disease characterization and treatment
- Discovery of single or multi-omics disease biomarkers
- Imaging techniques and analysis
- Algorithms for -omics data analysis and integration
- Single-cell -omics and bioinformatics
- Development of Polygenic Risk Scores related to disease
- Pharmacogenomics, pharmacoproteomics, and pharmacometabolomics

an Open Access Journal by MDPI

## Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM; ISSN 2075-4426)* is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

## Author Benefits

**Open Access:** free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

**Journal Rank:** JCR - Q1 (Medicine, General and Internal) / CiteScore - Q2 (*Medicine (miscellaneous)*)
