

Pathophysiology and Treatment of Secondary Conditions after Spinal Cord Injury

Guest Editors:

Prof. Dr. David R. Gater

Dr. B. Jenny Kiratli

Dr. Gary J. Farkas

Deadline for manuscript
submissions:

closed (5 December 2022)

Message from the Guest Editors

The spinal cord is the central nervous system's conduit from the brain to the rest of the body and translates sensory and motor information to and from the brain as well as autonomic and peripheral nervous systems. Spinal cord injury (SCI) can have devastating effects on sensory and motor neurological function as well as autonomic processes on cardiovascular, pulmonary, gastrointestinal, genitourinary, musculoskeletal, hematological, endocrine, and integumentary systems, creating profound psychosocial and spiritual dilemmas. This Special Issue will address the pathophysiology and treatment of secondary conditions associated with SCI.

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, ‘omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank: JCR - Q2 (*Medicine, General & Internal*) CiteScore - Q2 (*Medicine (miscellaneous)*)
