

Special Issue

State-of-the-Art Cardiovascular Imaging in Personalized Medicine

Message from the Guest Editors

Cardiovascular imaging is a central aspect of personalized medicine, empowering healthcare providers with detailed information about a patient's heart structure, function, and blood flow. This deep knowledge enables healthcare professionals to make informed and personalized treatment decisions, leading to better patient outcomes and improved overall healthcare. This Special Issue of the *Journal of Personalized Medicine* aims to highlight state-of-the-art cardiovascular imaging in the areas of diagnosis and risk stratification, tailored treatment plans, monitoring disease progression, minimally invasive interventions, predictive modeling and AI, research and innovation, and patient education and involvement. Progress in personalized medicine in the cardiovascular field heavily relies on advances in diagnostic methods; therefore, it is crucial to stimulate basic and clinical research.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
