Novel Challenges and Advances in Anesthesiology and Pain Management

Message from the Guest Editor

Anesthesiology is an essential part of surgery and crucial in ensuring patient safety and promoting high-quality recovery after surgery. In recent years, the concept of anesthesiology has evolved into perioperative medicine, which encompasses preoperative evaluation, intraoperative anesthesia management, and enhanced recovery after surgery. Despite advancements in the field of surgery and anesthesia, the perioperative mortality rate remains high at 1.4% in the United States and 4% in Europe. Chronic pain affects 30% of patients, and perioperative stroke affects 10%. We encourage researchers to submit cutting-edge research on advancements in anesthesiology and pain management and to provide their own thoughts and insights. We especially welcome preclinical research that offers innovative ideas and potential targets for individual therapy.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
