

Special Issue

Personalized Medicine and Technology in Oral Science

Message from the Guest Editors

Over the past 60 years or so, emerging technologies have led to great advances in the diagnostics and therapy of dental diseases, representing key elements in achieving the true potential of personalized medicine. The use of dental technologies has enhanced precision and improved patient care in dentistry, during both the diagnosis and treatment plan, supporting the modern approach of treating patients, not diseases. In this Special Issue, we aim to provide readers with a comprehensive collection of cutting-edge articles on precision-enhancing technology-based approaches and strategies in personalized dentistry, with dedicated software applications and hardware devices targeting challenges and progress in this field. We hope that this issue will encourage and support further efforts towards the effective and safe use of technology in dentistry. We welcome original scientific, clinical research, and review articles.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
