# New Challenges and Perspectives in Neurology and Autonomic Disorders

### Message from the Guest Editors

The autonomic nervous system, consisting of sympathetic, parasympathetic and enteric divisions, is an integral part of the central and peripheral nervous systems and controls homeostasis, blood flow and responses to internal and external stimuli. Disorders of the autonomic nervous system—both common, such as POTS, neurocardiogenic syncope and orthostatic hypotension; and rare, such as multiple system atrophy, amyloid neuropathy and familial dysautonomia—have been an evolving area of research in basic and translational science as well as in clinical practice. More recently, the SARS-CoV-2 pandemic further underscored the need to elucidate the neurologic and autonomic mechanisms of post-infectious syndromes. To this end, the new frontier in neurology and autonomic disorders, as well as the mechanistic interplay between a wide range of neurologic conditions and autonomic dysfunctions, present an exciting opportunity for groundbreaking discoveries.

### Guest Editors

Dr. Svetlana Blitshteyn

Department of Neurology, Jacobs School of Medicine and Biomedical Sciences, University at Buffalo, Buffalo, NY, USA

Dr. Ilene Ruhoy

Mount Sinai South Chiari EDS Center, Oceanside, NY, USA

Dr. Jennifer Robblee

Barrow Neurological Institute, Phoenix, AZ, USA

### Deadline for manuscript submissions

closed (10 July 2024)

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

---

### Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

---

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
