

Special Issue

Personalized Medicine in Gastroenterology and Hepatology

Message from the Guest Editor

Gastroenterology and hepatology is a rapidly evolving field. It is also a field that will soon rely on precision medicine, given that every person's diet and gut microbiome is different. In addition to this, metabolic dysfunction-associated liver disease (MASH) is increasing worldwide and in the US, and several new and exciting drugs to treat it are being approved or being close to approval. The upcoming years are going to be extremely exciting for research in this sphere. For this reason, we have proposed this Special Issue of the *Journal of Personalized Medicine* in order to collect papers about personalized medicine in the field of gastroenterology and hepatology. Studies may explore existing observational and descriptive analyses of conditions in gastroenterology and hepatology and new aspects of personalized medicine using basic science, clinical, and population-based approaches.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
