

## Special Issue

# Advanced Interventional Radiology: Innovation Driving Personalized Medicine

### Message from the Guest Editor

Interventional radiology has revolutionized the field of medicine by offering minimally invasive alternatives to conventional treatments. Over the years, remarkable progress has been made in interventional techniques, allowing for precise and targeted interventions across a wide range of medical conditions. From vascular interventions to percutaneous procedures, interventional radiology has opened up new frontiers in personalized therapy.

One key area of focus for this Special Issue is interventional radiology in oncology. Furthermore, we seek articles that explore the integration of imaging modalities, artificial intelligence, and data-driven approaches in interventional radiology.

We invite all researchers and clinicians working in the field of interventional radiology to submit their valuable original research articles and reviews for this Special Issue. Together, let us advance the frontiers of interventional radiology and drive the paradigm shift towards personalized medicine.

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
