Personalized Medicine in Ophthalmology

Message from the Guest Editor

Medical practice is moving toward precision medicine. Advances in our understanding of the pathophysiology of various eye disorders have enabled the identification of the following implications:

- Clinical features;
- The development of precise diagnostic methods;
- The development of targeted therapies.

This Special Issue invites research articles, reviews, and communications, including but not limited to, those that address the following topics: comprehensive ophthalmology, glaucoma, cornea, oculoplastics, retina, and vitreous diseases.
