

## Special Issue

# Personalized Medicine in Pathological Diagnosis

### Message from the Guest Editors

Pathological diagnosis aims to obtain human tissues or cells through a series of methods and use microscopes and other tools to process and observe the samples in a series of ways to study the causes, pathogenesis, morphological structure, functions, and metabolism of the disease, revealing the occurrence and development of the disease and thus clarifying the nature of the disease. With our deepened understanding of various diseases, emerging technologies will help the accurate diagnosis of diseases, realize digital pathology, and bring new possibilities for the accurate diagnosis of complex diseases. This Special Issue aims to highlight the latest progress in the field of pathology and welcomes original research articles and reviews that focus on recent discoveries in disease diagnosis. We also encourage researchers to submit articles on new tissue biomarkers.

### Guest Editors

Dr. Gianpietro Volonnino

Department of Anatomical, Histological, Forensic and Orthopedic Sciences, Sapienza University of Rome, 00128 Rome, Italy

Dr. Aniello Maiese

Department of Anatomical, Histological, Forensic and Orthopedic Sciences, Sapienza University of Rome, 00128 Rome, Italy

### Deadline for manuscript submissions

25 September 2025

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
