Special Issue

Personalized Approaches in Endocrine Surgical Innovation

Message from the Guest Editor

This Special Issue aims to explore the latest advances and evolving paradigms in the treatment of endocrine disorders involving the thyroid, parathyroid, and adrenal glands. Focus will be placed on minimally invasive and alternative approaches, including ablative therapies. active surveillance protocols, and conservative strategies in selected cases. Moreover, particular attention will be devoted to the management of advanced endocrine diseases (poorly differentiated thyroid carcinoma, anaplastic thyroid carcinoma, parathyroid carcinoma, and adrenal cortical carcinoma) or those in the context of familial or syndromic conditions, where tailored and multidisciplinary approaches are essential. Original research, reviews, and meta-analyses that reflect current trends and offer perspectives on future directions are strongly encouraged.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
