Special Issue

Prostate Cancer: Diagnosis and Personalized Treatment

Message from the Guest Editors

This Special Issue aims to present recent advances in the diagnosis and treatment of prostate cancer. The impressive refinements in diagnostic and therapeutic techniques in this field make this a topic of the utmost importance. Multimodality and tailoring are the keywords to achieve successful treatment of prostate cancer. For this reason, original articles that highlight the results of advanced techniques to better characterize and treat this tumor are welcome, especially those focusing on the technological advancement of imaging, robotic surgery and minimally invasive techniques.

Review articles (narrative reviews, systematic reviews, and meta-analyses) are also welcome, and research, in general, with the aim of providing comprehensive knowledge on cutting-edge techniques and minimally invasive treatment approaches will be considered for publication.

Lastly, articles on the potential role of artificial intelligence (AI) and big data and their future perspectives may be considered for publication in this Special Issue.

Deadline for manuscript submissions

15 November 2025

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (*JPM*; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker
Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:
indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:
CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:
manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
