# Innovations in Knee and Hip Arthroplasty

# Message from the Guest Editor

Endoprosthetic treatment of the hip and knee joints has been an unparalleled success story over the past few decades: the rate of satisfied patients as well as the service lives of the prostheses have been steadily increased. However, this should not hide the fact that a small percentage of patients do not benefit from the procedure and report the persistence of symptoms without a clear cause being identified. For this reason, continued intensive research of the subject is needed. This Special Issue is dedicated to new innovative and personalized approaches in hip and knee arthroplasty to further improve the existing good quality of care. I would be pleased if you could contribute an original article, whether basic or clinical research, on the topic of "Innovations in Knee and Hip Arthroplasty", to our Special Issue. With best regards,

# About the Journal

# Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

#### **Editor-in-Chief**

#### Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

#### **Author Benefits**

## **High Visibility:**

indexed within Scopus, PubMed, PMC, Embase, and other databases.

## **Journal Rank:**

CiteScore - Q1 (Medicine (miscellaneous))

## **Rapid Publication:**

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
