

## Special Issue

# Interventional Cardiology: Advances in Personalized Treatment and Management

### Message from the Guest Editors

Interventional cardiology focuses on the diagnosis and treatment of cardiovascular diseases. This Special Issue invites submissions of original papers, comprehensive reviews and meta-analyses that contribute to a deeper understanding of interventional techniques and their impact on patient outcomes and the pharmacological approach to ischaemic disease. We are looking for original research that provides new insights into the development, application and outcomes of interventional procedures and studies that explore innovative technologies and methods. We welcome review articles summarising existing knowledge and providing a critical overview of current trends, challenges and future directions. Meta-analyses that rigorously summarise data to clarify ambiguities or strengthen current evidence are also highly encouraged. Authors are encouraged to submit their work, ensuring that each contribution meets the highest scientific rigour and ethical practice standards and contributes to the continued advancement of interventional cardiology.

### Guest Editors

Dr. Saverio Muscoli

Division of Cardiology and Interventional Cardiology, Policlinico Universitario "Tor Vergata", 00133 Rome, Italy

Dr. Alessandro Sticchi

Cardiac Catheterisation Laboratory, Cardiothoracic and Vascular Department, Azienda Ospedaliero Universitaria Pisana, 56126 Pisa, Italy

### Deadline for manuscript submissions

30 April 2026

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
