

## Special Issue

# Clinical Diagnosis and Treatment of Gastrointestinal Diseases

### Message from the Guest Editors

We invite you to contribute to this Special Issue. The aim is to collect a broad range of papers related to the diagnosis and treatment of gastrointestinal diseases, including the development of new endoscopic techniques, differential diagnosis, diagnostic models, refinement of diagnostic procedures, advances in endoscopic treatment, etc. The topics for the section include, but are not limited to, the following:

- Clinical diagnosis and differential diagnosis of gastrointestinal diseases (including the esophagus, stomach, small intestine, and colon), pancreatobiliary diseases, and liver diseases.
- Medical treatment of gastrointestinal diseases (including the esophagus, stomach, small intestine, and colon), pancreatobiliary diseases, and liver diseases.
- Advances in endoscopic retrograde cholangiopancreatography treatment.
- Clinical application of endoscopic ultrasound in gastrointestinal disease.
- New insights into or techniques of natural orifice transluminal endoscopic surgery.
- New epidemiological data that result in the improvement of the diagnosis and treatment of GI diseases.

### Guest Editors

Dr. Tao Bai

Dr. Shenghong Zhang

Dr. Gengqing Song

### Deadline for manuscript submissions
