

Special Issue

Application of Brachytherapy in Clinical Practice: 2nd Edition

Message from the Guest Editors

Interventional radiotherapy (brachytherapy) started after the discovery of radium by Maria Skłodowska Curie, and, at present, has clear indications for treatment in almost tumour sites. The present Special Issue is one of the few publications dedicated to interventional radiotherapy in Europe. The aim of this Special Issue is to present all the relevant clinical aspects of brachytherapy in all the tumour sites in a review or article format, considering future perspectives. To this end, clinical and medical brachytherapists work together with very specialised medical physicists, who are indispensable for the techniques' evolution. The submission of innovative clinical works in clinical practice and in physics, considering all the tumour sites is encouraged. Contributions exploring biological biomarkers and omics' brachytherapy, as well Montecarlo aspects in vivo dosimetry, among others, are welcome. We are soliciting reviews and original articles, and look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
