

Special Issue

Recent Research on Personalized Approaches to Clinical Therapeutics and Medication Safety

Message from the Guest Editor

Recent research has placed a greater emphasis on the importance of a personalized approach to improve patient outcomes in the fields of clinical therapeutics and medication safety. This Special Issue focuses on the most recent research and developments in the fields of clinical therapeutics and medication safety from a personalized perspective. We invite contributions that explore the practical application of personalized pharmacotherapy in clinical settings, the identification of patient-specific factors that influence medication efficacy and safety, and innovative strategies to mitigate actual medicine-related harm (e.g., adverse drug reactions). These contributions will enhance our knowledge in the broader discussion on personalized healthcare and inform future clinical practices.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
