

Special Issue

Precision Medicine in Neurooncology and Neurosurgery for the 21st Century

Message from the Guest Editors

Recent advances in brain tumour imaging, genomics, and therapeutic technology are now allowing for a precise and tailored approach to the management of patients with brain tumours. This is essential given the heterogeneity of these tumours as well as the challenges of surgery in eloquent brain, which have thus far confounded the outcomes. In this Special Issue, we aim to provide readers with a comprehensive collection of cutting-edge articles exemplifying this personalised approach to brain tumours. We hope this sharing of ideas will further fuel efforts towards more effective and safer therapies for brain tumours. We welcome the submission of original basic science and clinical research papers, review articles targeting any of these topics.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
