

Special Issue

Respiratory and Emergency Medicine

Message from the Guest Editors

The purpose of this Special Issue is to publish high-quality research papers, as well as review articles, to address the recent advances in respiratory diseases and emergency medicine. In particular, the topics of interest for this Special Issue include, but are not limited to, obstructive/restrictive/vascular/infectious respiratory diseases, emergency medicine, acute critical care, disaster medicine and related areas of experimental and clinical research in respiratory and emergency medicine. These topics also cover the following aspects:

- Respiratory failure;
- Non-invasive ventilation;
- Nasal high-flow therapy;
- Mechanical ventilation;
- COPD;
- Asthma;
- Lung infections (COVID-19);
- Pharmacology;
- Cardiopulmonary resuscitation;
- Toxicology;
- Airway management;
- Ultrasound in respiratory and emergency medicine.

Original, high-quality contributions that have not yet been published or that are not currently under review by another journal are welcome.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on “omics”-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the second half of 2025).
