

## Special Issue

# Cardiac Disease in Pregnancy: Diagnosis, Management and Outcomes

### Message from the Guest Editor

Cardiovascular disease is a major cause of non-obstetric maternal morbidity and mortality, with increasing prevalence over the last two decades. It affects close to 1% of pregnancies in the developed world and 4% in the developing world. Although rheumatic heart disease comprises the most common maternal cardiac disease in the developing world, congenital heart disease is the most common maternal cardiac disease in the Western world. Optimal care for pregnant patients is best delivered by a multidisciplinary team which includes specialties such as cardiologists, maternal–fetal medicine specialists, anesthesiologists, geneticists, cardiovascular interventionalists and cardiac surgeons. The increased prevalence has led to the development and growth of the cardio-obstetrics field and related clinics worldwide.

### Guest Editor

Dr. David S. Majdalany

Department of Cardiovascular Medicine, Mayo Clinic, 13400 East Shea Boulevard, Scottsdale, AZ 85259, USA

### Deadline for manuscript submissions

15 April 2026

## About the Journal

### Message from the Editor-in-Chief

*Journal of Personalized Medicine (JPM)*, ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

### Author Benefits

#### High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

#### Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

#### Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
