

Special Issue

Molecular Pathology of Digestive Oncology

Message from the Guest Editor

The *Journal of Personalized Medicine* is pleased to announce a Special Issue entitled “Molecular Pathology of Digestive Oncology.” This issue will highlight recent advances in the molecular mechanisms and tumor biology of digestive cancers, including those of the esophagus, stomach, intestines, pancreas, and hepatobiliary system. We welcome submissions on topics such as genetic and epigenetic alterations, molecular biomarkers, the tumor microenvironment, the microbiome, and novel diagnostic or therapeutic strategies. Studies that connect molecular pathology with clinical applications and precision medicine are particularly encouraged. Original research articles and reviews from clinicians and researchers are invited. We look forward to hearing from you.

Guest Editor

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on “omics”-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the second half of 2025).
