

## Special Issue

# Emergency Medicine: Clinical Advances and Challenges in Diagnosis and Treatment, 3rd Edition

### Message from the Guest Editor

I am pleased to announce that, due to the success of the first and second editions of the Special Issue “Emergency Medicine: Clinical Advances and Challenges in Diagnosis and Treatment”, we have launched a third edition in 2025 for high-quality submissions in the Personalized Critical Care Section.

The main objective of this edition is to acquire the most valuable information regarding the newest approaches in the diagnosis and treatment of emergency care patients that will create new perspectives on patient management through various case reports. At the same time, we keep our attention on the technologies and innovations that facilitate and improve the quality of the treatments received by patients in the emergency department.

This third edition aims to collect and welcome articles from adjacent areas of acute care, such as intensive care, pre-hospital care, acute stroke care, health services research, and implementation research.

---

### Guest Editor

Prof. Dr. Ovidiu Alexandru Mederle

Department of Surgery, “Victor Babes” University of Medicine and Pharmacy Timisoara, 300041 Timisoara, Romania

---

### Deadline for manuscript submissions

15 April 2026
