

Special Issue

Emergency Medicine: Clinical Advances and Challenges in Diagnosis and Treatment, 3rd Edition

Message from the Guest Editor

I am pleased to announce that, due to the success of the first and second editions of the Special Issue “Emergency Medicine: Clinical Advances and Challenges in Diagnosis and Treatment”, we have launched a third edition in 2025 for high-quality submissions in the Personalized Critical Care Section.

The main objective of this edition is to acquire the most valuable information regarding the newest approaches in the diagnosis and treatment of emergency care patients that will create new perspectives on patient management through various case reports. At the same time, we keep our attention on the technologies and innovations that facilitate and improve the quality of the treatments received by patients in the emergency department.

This third edition aims to collect and welcome articles from adjacent areas of acute care, such as intensive care, pre-hospital care, acute stroke care, health services research, and implementation research.

Guest Editor

Prof. Dr. Ovidiu Alexandru Mederle
Department of Surgery, “Victor Babes” University of Medicine and Pharmacy Timisoara, 300041 Timisoara, Romania

Deadline for manuscript submissions

15 April 2026

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on “omics”-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the second half of 2025).
