

Special Issue

Novel Challenges and Therapeutic Strategies for Ear, Nose and Throat (ENT) Diseases

Message from the Guest Editor

This Special Issue welcomes research articles and review papers focused on pathogenetic, diagnostic, and therapeutic perspectives in ear, nose and throat disease. Every year, we see continued advancement in the field of Otorhinolaryngology. The goal of this Special Issue is to keep us up to date on an ever-expanding field. We will include a number of topics that are pertinent for all aspects of challenges and therapeutic strategies in Otology, Rhinology, Laryngology and other ENT fields as well as in related fields including office-based management, general surgical updates as well as recent diagnostic and therapeutic investigations and innovations. Some of the topics are well known to our readers but provide key updates to help with patient management. Others are novel concepts that we are still trying to understand and provide a basic background for exciting ongoing work. For this reason, we proposed this Special Issue of the *Journal of Personalized Medicine* in order to collect papers about new challenges and therapeutic strategies in all the fields of otorhinolaryngology.

Guest Editor

Prof. Dr. Massimo Mesolella

Unit of Otorhinolaryngology, Department of Neuroscience, Reproductive Sciences and Dentistry, "Federico II" University of Naples, 80138 Naples, Italy

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
