

Special Issue

Behavioral Genetics of Addiction

Message from the Guest Editor

The implementation of genetic approaches into the research field of addiction and substance use disorders has greatly improved the understanding of the mechanisms underlying addiction and addictive behaviors. This Special Issue of the *Journal of Personalized Medicine* aims to highlight current progress in the field of the behavioral genetics of addiction by presenting the latest findings obtained from a variety of study designs. These studies will cover research work from both preclinical and clinical levels including, for example, transgenic rodent models, genetically selected rat/mice strains, or human populations using pharmacological, behavioral, or epigenetic approaches. The scientific advances in the field of behavioral genetics of addiction presented here support a personalized medicine approach to addiction treatments and pharmacotherapies that takes gene-dependent phenotypes into account. About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
