Recent Advances in Bariatric Surgery

Message from the Guest Editors

Obesity is currently considered a global epidemic condition, and bariatric/metabolic surgery has emerged as an option for achieving significant and durable weight loss in the treatment of clinically severe obesity. There is increasing demand for bariatric/metabolic surgery worldwide; in fact, thousands of bariatric procedures are currently being performed around the world with exponentially increasing trends and outcomes. Over the years, much research has been performed in this field, generating a high degree of knowledge on the effect of bariatric procedures on obesity comorbidities and its effectiveness over the time. In addition, new procedures have been developed and have changed the face of modern bariatric surgery. The aim of this Special Issue is to provide an overview of recent advances in the field of bariatric surgery. Therefore, we encourage researchers in the field of bariatric surgery to submit an original article (no animal research) or review to this Special Issue (case reports and short reviews will not be accepted).

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
