Personalized Medicine and Multidisciplinary Approach in Biliopancreatic Endoscopy

Message from the Guest Editor

Biliopancreatic endoscopy has undergone important changes and expansion over the last two decades. Not only are technologies around ERCP expanding, but also the different subtypes of procedures and indications are becoming more widespread, and subsequently, the number of professionals performing these techniques and coming from different specialties is increasing. The aim of this issue is to provide a comprehensive overview of all available multidisciplinary techniques that are involved in the treatment of biliopancreatic diseases. The advent of excellent imaging, better visualization, and excellent software makes the approach to biliopancreatic diseases by definition multidisciplinary. Team collaboration is essential for this highly dynamic environment. High definition cholangioscopy, 3D imaging of the biliopancreatic system, radiofrequency ablation, and endomicroscopy are some of the cutting-edge procedures that will be approached. Original research articles, cutting-edge procedures, literature reviews, and metaanalyses are welcome.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
