Special Issue

Novel Challenges and Advances in Orthopaedic and Trauma Surgery

Message from the Guest Editors

Over the last few decades, major advancements in the diagnosis and treatment of patients with musculoskeletal disorders and trauma have taken place. Nevertheless, implant development, diagnostics, surgical treatment, and post-operative rehabilitation are subject to change and improvement. The aim of this Special Issue is to share the knowledge and experience of authors regarding the diagnosis and treatment within the fields of orthopaedic and trauma surgery. Submissions related to individualised patient care, evolving diagnostics, new advances in surgical techniques, surgery-assisting technologies, and advanced protocols for improved rehabilitation are welcome. We encourage the submission of original research articles, reviews (including systematic reviews), and communications focusing on the diagnosis and treatment of orthopaedics and trauma-related disorders. Articles discussing expert consensus, recommendations, guidelines, and promising surgical techniques are also welcome.

Guest Editors

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM; ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. JPM publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). JPM is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
