Special Issue

Women's Special Issue Series: Personalized Medicine

Message from the Guest Editors

We are pleased to announce this Special Issue, titled "Women's Special Issue Series: Personalized Medicine", to celebrate and highlight the significant achievements of female scientists in the development of personalized medicine research. For this Special Issue, we are seeking the submission of original research articles and comprehensive review papers from the field of personalized medicine, in particular those regarding precision medicine, pharmacogenomics/proteomics, omics association analysis, disease biomarkers, molecular targeted therapy, etc. This series advocates for the advancement of women in science. The submission of articles with all-women authorship is especially encouraged. Nevertheless, we welcome submissions from all authors, irrespective of gender.

Guest Editors

Prof. Dr. Francesca Toia

Division of Plastic and Reconstructive Surgery, Department of Precision Medicine in Medical, Surgical and Critical Care, University of Palermo, 90133 Palermo, Italy

Prof. Dr. Stefania Tenna

Research Unit of Plastic Surgery, Department of Medicine and Surgery, Università Campus Bio-Medico di Roma, via Alvaro del Portillo, 21-00128 Rome, Italy

Deadline for manuscript submissions

closed (28 February 2025)

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on "omics"-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical

subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2. Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
