

Special Issue

Personalized Dentistry: From Multidisciplinary Diagnosis to Precision Treatment

Message from the Guest Editor

This Special Issue aims to gather innovative research and comprehensive reviews focused on the multidisciplinary aspects of personalized dentistry and medicine, highlighting how collaboration among different fields can enable precision in diagnosis and treatment planning. We invite submissions of original research articles and reviews that align with the journal's scope:

- Advanced diagnostic tools for personalized treatment planning;
- Role of genetics and genomics in dental disease management;
- AI and digital technologies for precision dentistry;
- Ethical, educational, and regulatory perspectives on personalized care;
- Integration of biomaterials in dental therapies;
- Multidisciplinary case reports and treatment protocols in personalized dental medicine.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine is one of the few journals that covers the diverse areas involved in the field, including research at basic, translational, and clinical levels. It focuses on “omics”-level studies that seek to define the basis of interindividual variation in susceptibility for a disease, its prognosis or definition of clinical subsets, and response to therapy (pharmacogenomics). We are also interested in systems biology as it relates to interindividual variation, and research on new methodologies, informatics, and biostatistics, in the aforementioned areas.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W.F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 5.8 days (median values for papers published in this journal in the second half of 2025).
