Imaging Biomarkers in Oncology

Message from the Guest Editors

In the last decade, oncology has seen dramatic advancements that have revolutionized cancer care, allowing for a more personalized treatment approach and overall improved patient management in an increasing proportion of clinical scenarios. In this context, medical imaging plays a key role in defining and evaluating specific imaging biomarkers, intended as objective imaging-based indicators that may serve to refine or enhance diagnostic information obtained by conventional image analysis, assess early therapeutic responses, predict individual outcomes, and guide treatment based on patient- and disease-specific features. The purpose of this Special Issue is to collect evidence from the latest research landscape regarding the status of imaging biomarkers in oncology, with a special focus on radiomics and its evolving role in the advanced management of the most common and paradigmatic cancers.

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q2 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 17.4 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2024).
