

Special Issue

Cutting-Edge Diagnostics: The Impact of Imaging on Precision Medicine

Message from the Guest Editor

The field of medical diagnostics has undergone a profound transformation over the past few decades, driven by advances in imaging technologies. The primary aim of this Special Issue is to explore the transformative impact of advanced imaging technologies on precision medicine. It seeks to provide a comprehensive overview of how imaging innovations are enhancing diagnostic accuracy, enabling the early detection of diseases, and facilitating personalized treatment plans. By bringing together contributions from leading researchers and clinicians, this Issue will serve as a key resource for understanding current trends and future directions in diagnostic imaging and precision medicine. This Special Issue will feature cutting-edge research that showcases the latest technological advancements in medical imaging and their applications in precision medicine. Topics of interest include, but are not limited to, the following: Advanced imaging techniques (e.g., AI-enhanced imaging, molecular imaging);

About the Journal

Message from the Editor-in-Chief

Journal of Personalized Medicine (JPM), ISSN 2075-4426) is an international, open access journal aimed at bringing all aspects of personalized medicine to one platform. *JPM* publishes cutting edge, innovative preclinical and translational scientific research and technologies related to personalized medicine (e.g., precision medicine, pharmacogenomics/proteomics, systems biology, 'omics association analysis). *JPM* is covered in Scopus, the Science Citation Index Expanded (SCIE), PubMed, PMC, Embase, and other databases.

Editor-in-Chief

Prof. Dr. Kenneth P.H. Pritzker

Department of Laboratory Medicine and Pathobiology, Department of Surgery, University of Toronto, 6 Queens Pk Crescent W,F, Toronto, ON M5S 3H2, Canada

Author Benefits

High Visibility:

indexed within Scopus, PubMed, PMC, Embase, and other databases.

Journal Rank:

CiteScore - Q1 (Medicine (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.5 days after submission; acceptance to publication is undertaken in 3.5 days (median values for papers published in this journal in the first half of 2025).
