

Special Issue

Personalized Medicine for Rheumatic Diseases

Message from the Guest Editors

This Special Issue highlights and discusses the recent findings on rheumatic diseases, including the methodologies and tools used to detect, diagnose and manage the clinical counterpart of these diseases. The contributions reveal the importance of multidisciplinary teams that utilise the expertises of laboratory, clinical, imaging and clinimetry researchers while trying to fill the gaps in the knowledge about this topic, promising a great and exciting future in this field. We strongly encourage researchers to contribute to this Special Issue and share novel approaches to the diagnosis and treatment of rheumatic diseases.
